Interventions for Parenting Trauma-Exposed Children

**Saturday, November 11, 2017
9:00am to 2:00pm**

CHS invites foster and adoptive parents to attend an interactive training that offers an overview of concepts from the TBRI (Trust Based Relational Intervention) model created by Dr. Karyn Purvis and Dr. David Cross at the TCU Institute of Child Development.

Attendees will learn:

- How trauma impacts brain development and triggers “survival mode” in your child
- Practical tools for building a safe, trusting relationship with your child
- Methods for teaching your child’s brain new skills such as self-regulation and social competence
- Helpful interventions for preventing and managing behavioral episodes
- The importance of adult attachment style when working with children of trauma

CHS is a full-service, private, 501(c)(3) non-profit permanency-driven organization. Founded in 1900, we are one of Virginia’s oldest and most experienced adoption agencies. Our mission is to build strong, permanent families and lifelong relationships for Virginia’s at-risk children.
